

# RSI TOUGH TOWER MINI-SITE-ON-WHEELS

Built Tough in Texas, USA

## Small Yet Solid

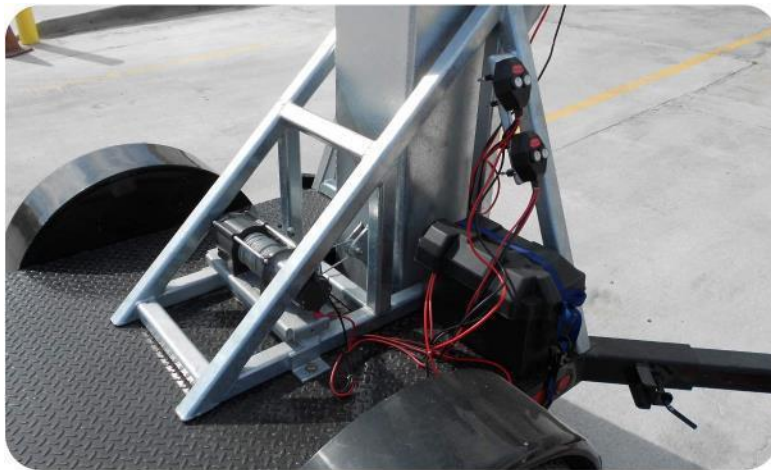

RSI Tough Tower Mini Site-on-Wheels consists of a lightweight, 60' all-metal telescoping tower that can be quickly and easily moved to virtually any location.

This genuine Tough Tower provides the ultimate in convenience, at a fraction of the cost of a full Site-on-Wheels.

The durable platform ensures stability during high winds or on rough terrain. Best of all, the RSI Tough Tower Mini Site -on-Wheels can handle just about anything you can throw at it.

Ask your sales representative about customizing Tough Tower Mini Site-on-Wheels for your application.

This genuine Tough Tower provides an extremely lightweight yet stable tower, enabling: Extended wireless network capacity, Video surveillance for law enforcement, Audio (music, PA) for outdoor events, Lighting for concerts and special events and Signage at events and trade shows
